■ **This product contains nicotine which is a highly addictive substance. For adults 18+ only.**

1. TITAN BIG PUFF 10K – Rechargeable Pod Kit

The **Titan 10K Big Puff** is a TPD-compliant rechargeable device that delivers up to **10,000 puffs**. It uses an innovative 4-in-1 capsule system: the device holds 4 pre-filled 2 ml pods at once, with 4 extra pods included in the box (total 8 pods). Each pod contains 20 mg nicotine salt e-liquid. Powered by a large 1000 mAh battery with USB-C fast charging.

Key Features:

- Up to 10,000 puffs (8 × 2 ml pre-filled pods)
- 1000 mAh rechargeable battery – USB-C charging
- 20 mg (2%) Nicotine Salt e-liquid
- 1.1 Ω mesh coil – smooth MTL draw
- Auto-draw activation (no buttons)
- Side storage compartment for spare pods
- Multiple popular flavours available

Featured Flavours from Images:

Flavour	Description
Blackcurrant Raspberry	Sweet & tart blackcurrant blended with juicy raspberry – rich berry profile.

Berry Plum	Mixed berries with ripe plum notes – smooth and fruity with a mellow finish.
Banana Ice	Creamy ripe banana with a refreshing icy coolness on the exhale.

Ideal for retailers looking for a high-value, longer-lasting alternative to traditional disposables. Lower waste and better cost-per-puff for end customers.

2. HAYATI PRO ULTRA+ (25K)

The **Hayati Pro Ultra+** is a dual-flavour rechargeable prefilled pod kit claiming up to **25,000 puffs**. It features two independent flavour chambers with mesh coils, a twist-to-switch mouthpiece, and an LCD screen showing battery and active chamber. Stylish metallic finishes available in multiple colours (including vibrant green and pink/purple gradient shown).

Key Features:

- Up to 25,000 puffs total capacity
- Dual flavour system – switch with a twist of the mouthpiece
- Independent mesh coils (no cross-contamination)
- 850 mAh rechargeable battery with USB-C turbo charging
- LCD display for battery & usage tracking
- 20 mg nicotine salt e-liquid
- Draw-activated, compact metal body with premium grip

Popular with customers who want variety without carrying multiple devices. Excellent shelf appeal due to the colourful metallic designs and screen.

3. RECHARGEABLE VAPES COLLECTION

A selection of popular high-puff rechargeable disposables / big-puff devices that are currently trending:

RandM Tornado 9000

Rechargeable disposable-style device offering approximately 9000 puffs. Features textured grip, RGB lighting on many versions, and a wide range of flavours. Pre-filled with nicotine salt e-liquid and USB-C rechargeable. Eye-catching designs (including character-themed artwork) make them popular impulse buys.

Crystal Prime 7000

Stylish 3D crystal-effect disposable delivering up to **7000 puffs**. 1.2 Ω mesh coil, 600 mAh rechargeable battery (USB-C), 20 mg nic salt. Transparent/crystal body shows liquid level. Available in 30+ flavours including Fizzy Cherry, Blueberry Raspberry and many fruit blends. Compact and visually premium – strong retail performer.

These devices fill the gap left by the UK single-use disposable ban – customers still want convenience and high puff counts, and rechargeable big-puff options deliver exactly that while remaining TPD-compliant.

WHY CHOOSE ECIG DISTRIBUTION?

Vast Product Range	Disposables (rechargeable big-puff), pod kits, e-liquids, coils, hardware & accessories – everything your shop needs.
Fast & Reliable Delivery	Trusted partners (DPD / Royal Mail). Prompt dispatch so your shelves stay stocked.
Competitive Wholesale Pricing	Attractive margins for retailers. Bulk deals available – contact us for current price lists.
Dedicated Support	We are your partner in success. Help with product selection, trends and order support.
